The program was incredible and we learnt a lot in just 6 days. From body language and speaking to resume building, aptitude test preparation and multiples rounds of group discussions, I definitely feel more prepared to face the upcoming placement drive. The mentors increased my motivation and confidence through their advice and experiences. At the end I really felt that the long 9 am to 6 pm classes were completely worth it.

Placement training is a story of an individual who knew himself where he stands. Yet the roller coaster ride starts with individual training aptitude communication skills group discussion HR interview preparation and theme of the training would be well understood at the end of training comes out with high ray of hopes and confidence. The trainees are simple and explanatory who make the students to understand the placements with accountability.

"I recently attended the Skill Development program and it was a game-changer for me. The program was led by the amazing Renjith Kesav, who not only provided us with valuable insights but also helped us develop essential skills such as communication, teamwork, and leadership. The activities and group discussions were very helpful in building confidence and preparing us for the placement drive. Overall, I highly recommend this program to anyone who wants to excel in their career and thank the team at Centre for Career Development for their valuable contribution to my professional growth."

I had a fantastic time attending the training programme. It has clearly shown me the value of resume writing, group discussions, interview preparation, and much more. It helped me see how I could approach the placements with more confidence and self-belief. Though the assignments and examinations offered were challenging they were really beneficial in preparing me for the future placements. The programme is definitely worth your time and money.
